## SUMMARY

Experienced Frontend Developer with 4 years of proven expertise in creating intuitive user interfaces. Specialized in React with 2 years of hands-on experience, I possess a strong understanding of the entire software lifecycle and am adept at seamlessly transitioning between frontend and fullstack development. My versatile background includes working across diverse company sizes, from small startups to large MNCs.

## SKILLS

HTML Css Bootstrap MUI JavaScript React Redux Angular Node Express.js MongoDB Git SEO

## EXPERIENCE

### Full Stack Developer (co-op)

Royal Bank of Canada (RBC)

May 2023 – Aug 2023 (Canada)

- Collaborated with digital accessibility team, tested internal websites/apps using accessibility tools like JAWS and Axe, and provided technical solutions.
- Developed full-stack application automating testing for enterprise websites/apps, providing accessibility scores, and assisting in identifying accessibility issues.

### Software Developer

NeoSoft Technologies

June 2021 – Sept 2022 (India)

- Developed UI components with React, utilizing system design components, Redux for state management, deployed dynamic dashboard and profile with 50+ components.
- Based on my communication and leadership abilities, I was selected among my team of six to represent NeoSoft in interviewing 16 students from eight colleges for a junior JavaScript developer position.

### Wordpress Developer

Blufig

July 2018 – Feb 2020 (India)

- Developed a custom WordPress theme that improved website speed by 30%, using HTML and Scss and removing all page builders. Additionally, I implemented necessary SEO requirements prior to deploying the website powered by custom theme and removing all page builders. Additionally, I implemented necessary SEO requirements prior to deploying the website.

### Front End Developer (Intern)

Think201

Jan 2018 – April 2018 (India)

- Performed front-end testing, published company blogs, collaborated with SEO team, and revitalized website to enhance company's online presence.

## EDUCATIONS

### Post Graduation

George Brown College

Web Development & Design Certificate

Sept 2022 – Aug 2023 (Canada)

### Bachelors Degree

Global Academy of technology

Computer Science Engineering

2013 – 2017 (Bangalore, India)

## PERSONAL PROJECTS

### A11y Checker

<https://a11y-client.onrender.com/>

A11y Checker is a free and comprehensive online tool for assessing website accessibility. It offers detailed reports on identified issues, pinpointing their locations and suggesting effective resolutions.

### Dev Connector

<https://github.com/tenzinwoz/DevConnectot>

The full stack app that will connect developers worldwide, allowing them to authenticate, create a profile, make posts, comment and view other developer's public GitHub repos by entering their username. The back-end, built with Node.js and Express, will handle API requests and data storage while the React-based front-end will provide an intuitive user interface.

### Technical Blog

<https://tenzinwoz.hashnode.dev/>

I am passionate about writing programming concept blogs that provide a clear understanding of core programming principles, making it helpful and accessible for others to grasp complex concepts in programming.
